

Dear Sirs

Re: ACT Reprographics Ltd

We have worked with ACT for the past 8 years as our principal supplier of large format graphics and display equipment.

ACT have also provided us with a design service for everything from logos and adverts to labels and flyers for our diverse range of products. They have also provided a complete exhibition project management service.

For the past two years specifically we have worked with ACT on a project to manage a comprehensive exhibition programme using Nimlok modular display equipment. They have designed a range of different sized stands, stored and installed them all over the UK.

We have commissioned over £70, 000 worth of work with ACT in the last 3 years alone and have found their support and quality of workmanship to be of the highest quality and their customer service has been exceptional in all the time that we have used their services.

Yours sincerely

Gerard Cunliffe
Marketing Manager
