Dear Sirs

Re: ACT Reprographics Ltd

We have worked with ACT for the past 7 years as our principal supplier of large format graphics.

We have placed in excess of £135,000 worth of work with ACT during the past 3 years. They have supplied us with everything from foamex panels through to street banners, from rollups to popups all of which have been of an extremely high quality and produced to a deadline which they always met.

Their advice and professionalism from the start of a job to its delivery has been of the utmost quality and would not have any hesitation in recommending them as a supplier.

Yours Sincerely

Wayne Pearson
