

COVID-19 Portable Information Signs

COVID-19 Portable Information Signs

As the country begins to open up **act** will be able to supply a number of different types of Informations Signs, Queuing Products and Barriers - using graphics already designed by **act** or alternatively those from your Print Ready Artwork.

Essential Cafe Barrier

This is a great value product which can be used both internally and externally.

- Available in a modern, powder coated black finish with sleek black chrome plates
- High quality steel components with wide 350mm base
- Graphics can be changed without tools in minutes
- Can be used cross bar top and bottom or cross bar top and spring clip bottom
- 1500mm wide cross bar

Standard Cafe Barrier

A more versatile Cafe Barrier as there are more widths available than the standard 1500 of the Essential.

- PVC graphics can be used to display your message
- Non-slip 'no marking' plastic ring supplied on 360mm base to prevent damage to floors
- Graphics can be changed without tools in minutes
- Can withstand wind speeds of up to 25kph
- Can be used cross bar top and bottom or cross bar top and spring clip bottom
- Cross Bar sizes available are 1000mm, 1500mm and 2000mm
- 2 different weight bases available

Shield

Double-sided aluminium sign with weighted recycled rubber base.

- Wipe clean
- Can be used inside or outdoors
- Graphics both can be applied on both sides
- Heavily weighted base ensures it will stay where deployed - 8kg
- Graphic Display Area - 416 x 763

COVID-19 Portable Information Signs

As the country begins to open up **act** will be able to supply a number of different types of Informations Signs, Queuing Products and Barriers - using graphics already designed by **act** or alternatively those from your Print Ready Artwork.

Custom Printed A-Board

A cost effective fluted polypropylene A board which can be printed with **act's** standard messages or one of your own

- Your own message professionally printed on a highly-visible sign
- Bright yellow design for increased visibility
- Folds flat for easy storage

High Impact Polypropylene 'A' Frame

An eye-catching sign for temporary use - using **act** standard messages or send in your own

- Folds flat for easy storage
- Built-in carrying handle for transportation
- Double-sided design increases visibility
- The message area size is 19.5cm x 34.5cm x 24.5cm
- Weight 0.85kg
- Manufactured from yellow high impact polypropylene

Outdoor A Poster Frame

Sturdy Aluminium & steel double sided poster frame

- Available in A1 & A2 sizes
- The classic inexpensive way to display your message
- Can withstand wind speeds up to 25kph
- Snap Frame to accept Poster

COVID-19 Portable Information Signs

As the country begins to open up **act** will be able to supply a number of different types of Informations Signs, Queuing Products and Barriers - using graphics already designed by **act** or alternatively those from your Print Ready Artwork.

Bollard Toblerone Signs

Bollard Signs are a 3-sided board which stands up with the longest edge being vertical. Typically, they wrap around a pole or post, so wind cannot blow it away. This product is ultra-portable and can be used time and time again thanks to its interlocking nature.

- Full Colour Digital Print on 3 sides
- Built in self locking system, setup in seconds!
- Ideal for converting bollards and columns into information points

Essential Outdoor Banner 'A' Frame

Grand format banners that assemble in minutes

- 3 sizes to choose from, 150cm, 250cm or 300cm wide
- No tools required – Push Fit
- Complete with pegs and carry bag and enough bungee ties to used single or double sided
- Can be used in wind speeds up to 40kph

act Standard Designs - Available Now

act have a standard design - as see in the visuals earlier in the brochure - these are available now so no waiting for your designer to supply Print Ready Artwork.
